PRESS RELEASE

Leaf Vacuuming Services to Begin October 19th

FOR IMMEDIATE RELEASE

October 15th, 2020

CONTACT

Village Hall
847-356-6100

Lake Villa, IL – Leaf vacuuming services will commence on Monday, October 19th through Friday, November 27th.

Residents are asked to rake leaves to the parkway lawn where vacuum trucks will collect them. Leaves should be placed in the parkway, as close to the curb or street as possible, but NOT in the street. In areas with ditches, please place leaves outside of the ditch on the edge of the street. Please only place leaves at the parkway for collection; placing twigs, apples, stones or other items may prevent Waste Management from collecting your leaves.

Residents should have their leaves at the parkway by 6:00 a.m. on the Monday of each collection week to ensure they are collected. Leaf collection does not necessarily take place the same day as your garbage collection.

Annually in the fall, Waste Management will make six trips throughout the Village to collect leaves. Leaves will be picked up along every street and road within the Village on each trip. Each pass through the Village may take several days. Residents are reminded that once the collection truck makes its run in your neighborhood, it will not return to collect any additional leaves until the next week.

Waste Management will make every effort to collect leaves along each Village roadway every week. However, factors such as weather or large volumes of leaves may slow down collection.
